

MERRICK SAPSFORD

Engineering Director

Experience

Oviva AG - Director Engineering

Berlin, DE - Oct 2021 / Today

- Lead a mixed discipline squad of engineers and designers.
- Provided career development and mentoring to squad members.
- Enabled roadmap delivery; including stakeholder management, agile processes and planning.
- Drove large technical initiatives including modularisation, architectural reform, increased testability and continuous release processes.

Mimi Hearing Technologies - Mobile Lead

Berlin, DE - Oct 2017 / Oct 2021

- Architected and pioneered SDK development, delivering unique sound personalisation and medically certified hearing health features; enabling integrations by Beyerdynamic, Kygo, Everlisten and more.
- Maintained the Mimi Hearing Test app, shipping major versions alongside iterative features and improvements.
- Lead a mixed development team of Android and iOS engineers.

Apadmi - Software Engineer

Manchester, UK - Aug 2015 / Oct 2017

- Delivered numerous iOS applications written in Swift and Objective-C; including BBC Music, Travel Counsellors and Co-op.

AviationLogic - Software Engineer

UK - Aug 2013 / Jul 2014

- Created iOS apps that aid general aviation pilots in visualising and evaluating their approach to an airfield using a dynamic graphical canvas.

Vulcan to the Sky Trust - Software Engineer

UK - Mar 2011 / Oct 2015

- Designed and built the XH558 iOS app allowing fans to follow the movements of a historic aircraft.

Personal Projects

- Creator of Loungebird.
- Creator of popular open source projects such as Tabman, Pageboy and more.

Education

BSc Computer Software Development (First Class with Honours)

July 2015 - University of Hull
